Quickshift Range

The Quickshift

The original machinery mover on the market. Imitations are available but none have been tried and tested for over 30 years and trusted by the biggest names in agriculture.

Further Refined

The Quickshift now comes with unique rotating stabilising plates that allow for switching from plates to hooks quickly and easily for maximum versatility. Its offset design means the plates can be switched from CAT 2 to CAT 3 linkage width.

- 5000kg capacity (or loader capacity if lower)
- Bracketing to suit and colour coding available
- Additional attachments available
- Drawbar Clevis as standard and attaches between stabilising plates during use
- 50mm ball pin as standard
- Weight approx: 215kg

Stabilising Plates
now feature
integrated hooks

50mm Ball Pin

Quickshift Plus

Offers all the features of the Quickshift but in a heavier duty build, rated up to 8000kg. Ideal for Agri dealers & contractors

Available Attachments

- Bag Lift Arms
- Bale Spikes
- 80mm Ball Pin
- Swivel Hook
- Waltersheid Hooks
- Snow Plough

80mm Ball Pin

The Fixedshift

A 3 point linkage for your loader. Adjustable lower link arms and either CAT 2 or 3 top link.

Safely and securely assists when performing maintenance on or moving 3 point linkage equipment including those without a top link

- 5000kg capacity (or loader capacity if lower)
- Bracketing to suit and colour coding included
- Weight approx: 202kg
